Myth #5: “I don’t have time to get the flu vaccine.”

FACT:

- There are many opportunities for UCSF employees to receive the flu vaccine. Starting today, there are numerous drop-in clinics to receive your flu vaccine. There are also Flu Deputies in each department that can administer a flu vaccine at work. Ask a Nurse Manager to find your nearest unit Deputy.
- UCSF also offers the flu vaccine to hospitalized patients. Speak to your Primary Care Provider if you’d like to receive a flu vaccine.
